

## CHATEUROPE: UNDERSTANDING EUROPE HAS NEVER BEEN EASIER

**Where have rents increased the most in Europe? Who won the presidential election in Poland? What does the European rearmament plan entail? No need to search endlessly — ChatEurope now has the answers to all your questions about Europe.**

Launched by a coalition of major European media outlets, [ChatEurope](#) is a unique information platform. Its key feature? An intelligent chatbot available in all EU languages, designed to help you understand how Europe works, how decisions are made, and how they affect your daily life.

This project, led by AFP, brings together leading media organisations including [Deutsche Welle](#), [France Médias Monde](#), [RFI Romania](#), [dpa](#), [ANSA](#), [Agora](#), [Maldita.es](#), [El País](#) and [OBCT](#). Together, they provide thousands of verified articles, which the chatbot draws on to deliver accurate, sourced information — far removed from the misinformation that thrives on social media.

Developed by [DRUID AI](#) and powered by [Mistral.ai](#)'s language model, the chatbot responds to your questions and guides you through a wide range of formats — from brief updates and in-depth analyses to short videos, explainers and even documentaries. The goal: to give you the tools you need to follow European news with trust.

ChatEurope is available in seven languages (French, English, German, Spanish, Italian, Romanian and Polish), but the chatbot can respond in all official EU languages.

Co-funded by the European Commission, ChatEurope remains entirely editorially independent — a crucial condition for ensuring its credibility.

*“ChatEurope is where innovation meets reliability. This project gives citizens direct, personalised, and verified access to European news, at a time of widespread disinformation. The media must evolve with AI — and that’s exactly what we’re doing here.”*

– **Christine Buhagiar**, Director of Development and Diversification, AFP

### About AFP

AFP is a leading global news agency providing fast, comprehensive and verified coverage of the events shaping our world and of the issues affecting our daily lives. Drawing from an unparalleled news gathering network across 150 countries, AFP is also a world leader in digital investigations. With 2,600 staff representing 100 different nationalities, AFP covers the world in six languages, with a unique quality of multimedia storytelling spanning video, text, photos and graphics.
