

## PRESS RELEASE

01.12.2015

### The COP21 live on [afp.com](http://afp.com)

AFP's coverage of COP21 features the infographic '[Target +2°C What's left to Negotiate](#)' on the site [AFP.com](http://AFP.com). It presents in a visual and simplified way the emission reductions that have already been achieved and what is left to be done to reach the targets of COP21.

Developed in partnership with the NGO Climate Action Tracker, the infographic allows the user to calculate the work that remains to be done on emission reductions by clicking on the different graphics.

The graphic also allows you to track the commitments made in the COPs held since the 1992 Earth Summit in Rio de Janeiro.

The [AFP.com home page](#) is also offering a selection of AFP's text, photo, video and video graphic coverage of COP21 in English, French and Spanish.

Follow the coverage via live tweets on [@AFP#COP21](#) et [@COP21en](#).

AFP's archives on environmental issues are available on [AFP Forum](#).

#### *About AFP*

AFP is a global news agency delivering fast, accurate, in-depth coverage of the events shaping our world from conflicts to politics, sports, entertainment and the latest breakthroughs in health, science and technology. With 2,326 staff spread across almost every country, AFP covers the world 24 hours a day in six languages. AFP delivers the news in video, text, photos, multimedia and graphics to a wide range of customers including newspapers and magazines, radio and TV channels, web sites and portals, mobile operators, corporate clients as well as public institutions.
